

Soon after the Convention in May 2006, the President with the Executive Committee have been busy and working hard to make sure the exchange students are well taken care. Other than meeting to plan for the activities of the year, we have started preparing the publication of the 4th e-newsletter to provide members with the latest development of our Alumni Association. At the same time we have close connection with the Development Office of Alumni Affairs (DOAA) and the Northern California Chapter.
